

Testimonials

Patient Warming

"We love the Hot Dog warming and don't know how we ever survived without it!"

- Lorrie C., DVM, Redwood City, CA

"Hot Dog warming is the best product that I've worked with to keep patients warm under prolonged anesthetic procedures."

- Rebecca B., CVT, Minneapolis, MN

"From my experience with a variety of devices including forced-air and water pumps, the Hot Dog seems to be the most effective for maintaining normothermia."

- Jennifer D., Sr. Anes Tech, St. Kitts

"They're safe and easy to use, and we get great results."

- Kate P., CVT, Eden Prairie, MN

"It's far more effective than our circulating water pads. No more leaky water pads! The Hot Dog blankets warm up quickly, and they're durable and easy to clean. It's all very quiet. I bought this instead of the Bair Hugger and I'm glad that I did."

- Karen G., B.Sc., DVM, Barrie, Ontario, Canada

"I found the Hot Dog warming to be superior to forced-air and warm water pads. It's effective and the blankets are durable."

- Jeff K., DVM, Eden Prairie, MN

"In comparison to forced-air warming, the Hot Dog warming has definitely resulted in increased post-operative body temperatures."

- Ellen R., Hospital Mgr, Lincolnshire, IL
